JHB/JB/32772
2nd September 1991

Attention: Beverly A. Monroe

COPY

Dear Beverly,

New Foreign Filing Based on USSN 605 860
PM 1455
REFLECTION SLEEVE FOR FLAVOR GENERATING ARTICLE
Our File: 32772

Thank you for your letter of 20th August 1991 enclosing papers for the above applications.

I have revised the introduction to the specification to replace the references to copending US applications by references to the corresponding European and Japanese applications. In the case of PM 1322 CIP II we do not yet have the Japanese application number, but our Associate will be able to identify the application from the details given, which include our own reference. Since the earlier applications will all have been published, I have indicated that the Kokai number should be included, but it is easier for our Associate to fill in these details.

As a preliminary, I enclose a copy of the revised first two pages of the specification and the revised claims, in both European and Japanese versions. If you find any error, please let me know at once.

To allow our Japanese Associate generous time for translation, in this case at least, I am sending the Japanese version of the text in the next few days. I do not aim to file the European application until my return from Switzerland in early October. Should you wish the application to be filed earlier, for whatever reason, please let me know.

Yours sincerely,

J. H. Bass
